ABOUT US

It was always meant to be. From the first moment you first laid eyes on each other to the moment of your proposal. Through the good times and the hard times. Love wasn't random. It was destiny. A story written in the stars.

Thez Weddings was formed by award-winning short film makers with the intention of capturing all these little moments to tell your story. The story of your special day. Our passion is to tell authentic, real stories whether it's through photography, videography or both, and there is no story more authentic, and more real than your story of love.

Choose the Thez Weddings team. Because it was always meant to be.

OUR CLIENTS

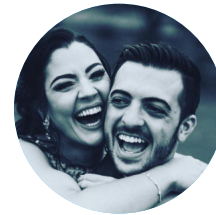

Suzie MacNamara

Thez Weddings are incredible. They captured our special day perfectly and we could not believe the quality of the video they produced for us. They were so easy to work with, making the time to meet up in person before the big day and were always so prompt at corresponding with us. You can really tell they love what they do, and are very skilled at capturing those intimate candid moments between family and friends. These moments are priceless and to have them so beautifully edited together is something I am so thankful for. I highly recommend using Thez Weddings to capture your special day, you will not be disappointed.

Elizabeth Lafitani

Thez Wedding has done an absolute stunning job at capturing our special day. Not only did we love it, but our family and friends really enjoyed it as we watched on with tears in our eyes. Couldn't emphasise enough on how happy we are with the results of the video. Keep up the good work guys. Such an awesome team!
